

Leveling Up Our Revenue

A fresh, data-driven look at guest spending behaviors
at Solstice Opal Hotel.

| Beyond the Basics

Stop Tracking "Total"

Looking at one big revenue number doesn't tell us enough. We need to dig into exactly *who* is spending and *how* we can boost it.

Find the Gaps

I wanted to see where we are leaving money on the table. We're identifying the best ways to level up our dining, spa, and activities.

The Deep-Dive

Going past the raw numbers to find the signal in the noise.

| Cleaning the Messy Data

-  **Fixed Merge Mismatches:** Stripped messy ID suffixes to make sure everything joined up perfectly across our systems.
-  **Segment Visibility:** Labeled missing loyalty tiers as 'Unknown' so we could track their impact instead of just deleting them.
-  **Verified Foundation:** Ended up with a super solid dataset of 721 verified records to work from for this presentation.

| Dining: Our Revenue Anchor

Dining

\$32,111 (53%)

Spa & Wellness

\$19,272 (32%)

Activities

\$9,237 (15%)

Dining is definitely our anchor—it makes up over half of our non-room spend.

| The Spa Factor

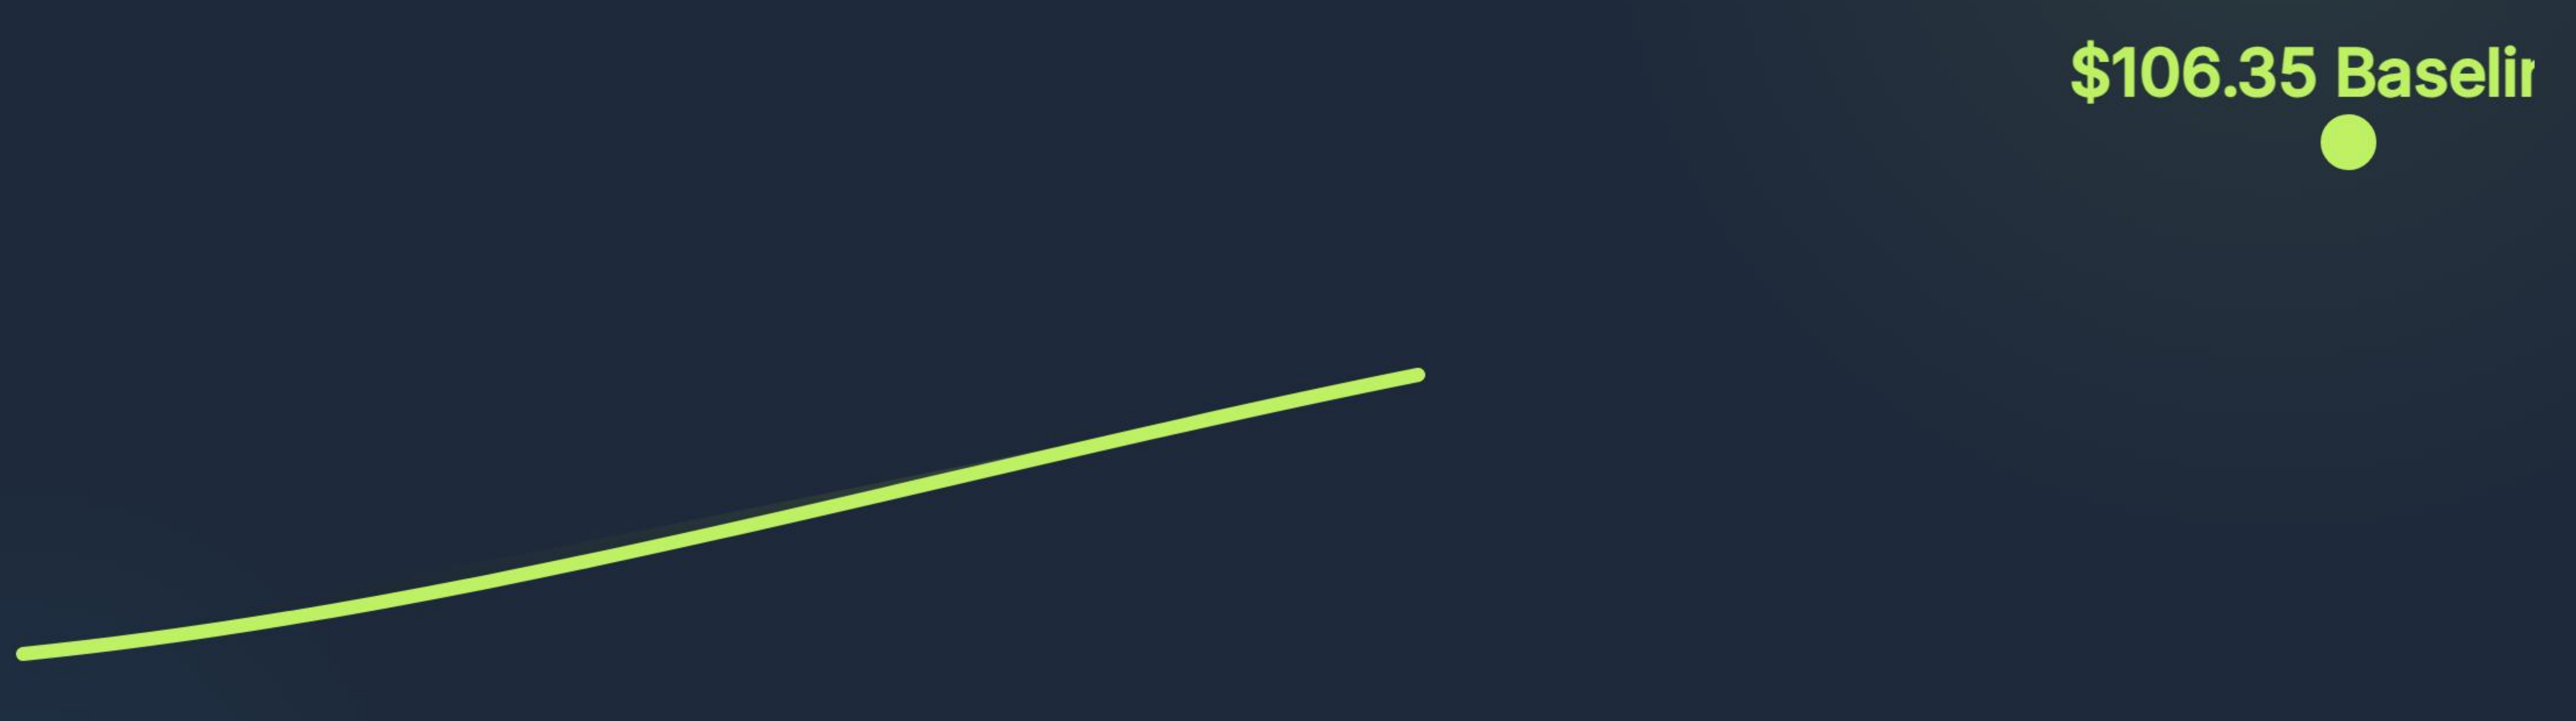

\$75

Per Transaction

The Heavy Hitter

While Dining has the volume, the Spa is our secret weapon. It has the highest average transaction value across the whole property. If we increase volume here, our margins will skyrocket.

| Our New North Star: KPI

Instead of just 'Total Revenue,' I'm recommending we track **Average Ancillary Revenue per Stay**. It shows how good we are at selling to the guests who are actually here.

The Huge Gap

High Volume, Zero Spend

We have a ton of repeat corporate guests who stay all the time but spend literally zero on extras. That's a massive group we haven't tapped into yet.

Turning these 'zero spenders' into revenue is our single biggest growth opportunity for Q4.

| The Gold Tier Advantage

12% Higher Conversion

Our Gold members are our best spenders. They convert 12% better than Silver members. I'm recommending we hit them with personalized dining offers the second they check in to capitalize on this momentum.

| The Game Plan for Growth

Gold Focus

Personalized dining offers
at check-in.

Corp Bundles

Bake breakfast or spa
credits into rates.

Spa Prompts

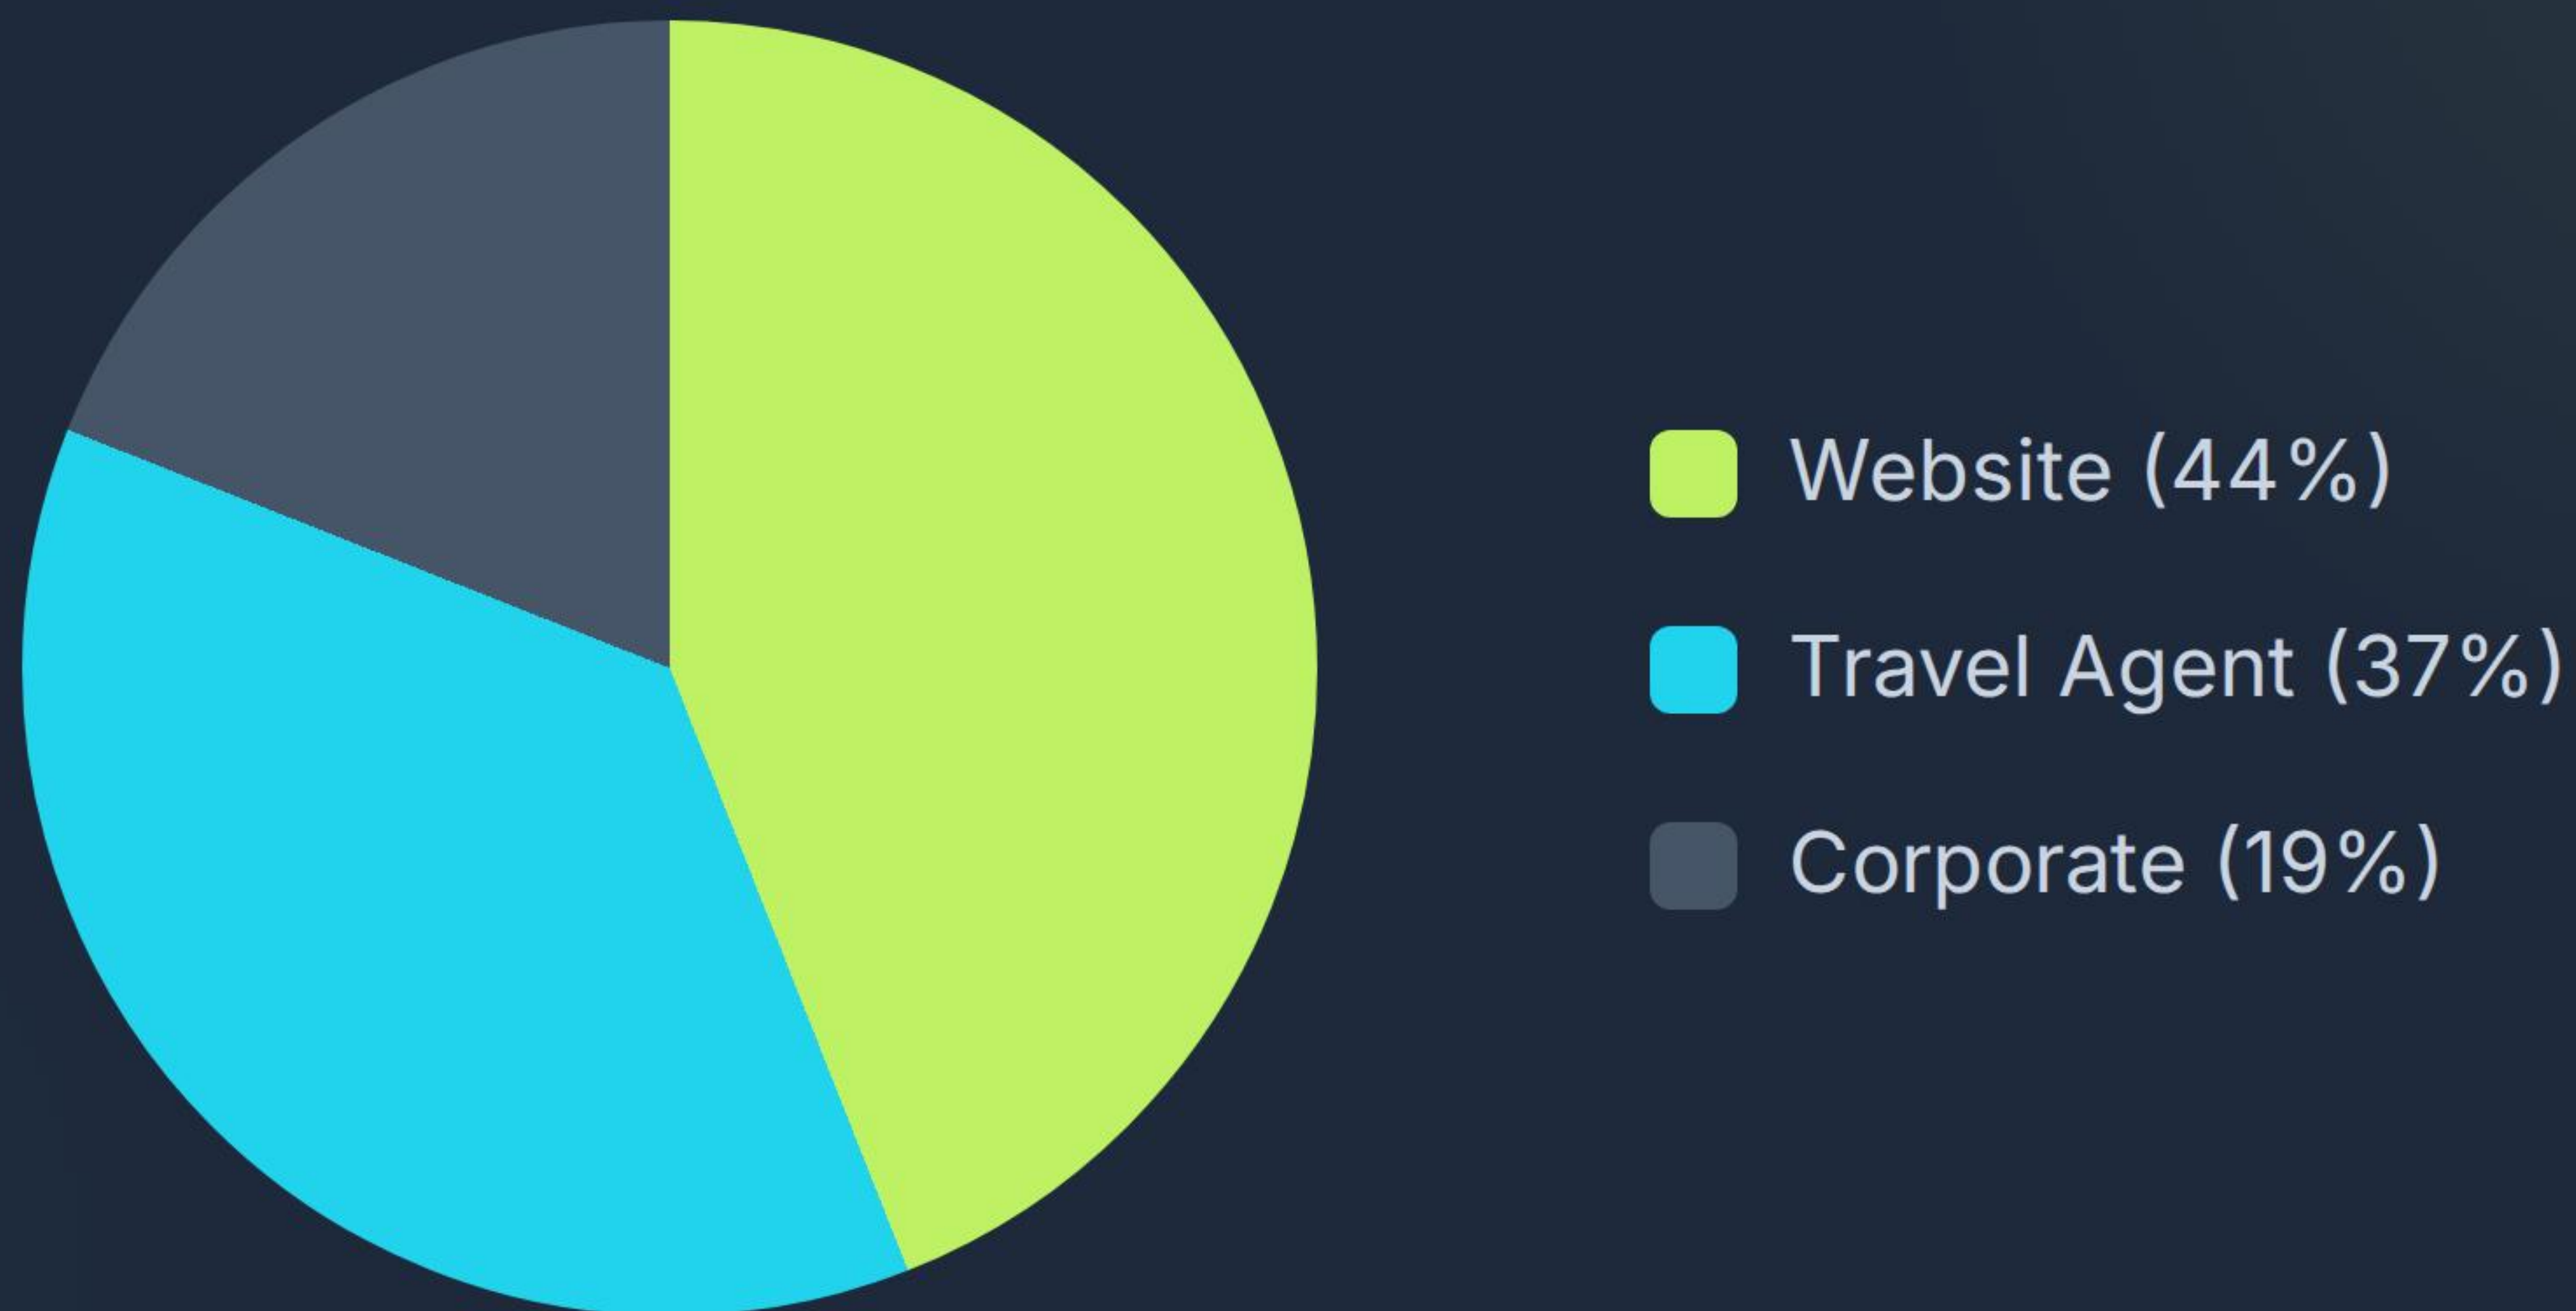

Pre-arrival digital
notifications for bookings.

KPI Check

Track Revenue per Stay
daily.
